LOCAL MEN WORK FOR CLINCH APPOINTMENT

Delegation Will Urge Grass Valley Man's Appointment Highway Commissioner

IS EMINENTLY QUALIFIED

Nevada County is Solidly Behind C. E. Clinch for the Appointment

The delegation that was to sponsor Charles E. Clinch as California State Highway Commissioner to Governor Rolph at Sacramento yesterday was postponed because of the absence of the Governor from the state capitol. Late Wednesday the Governor's secretary phoned those in charge of the appointment delegation and suggested that as it was impossible to meet the Governor Thursday, a later date should be planned.

It is expected that the delegation will go to Sacramento early next week. Many cars of local Clinch supporters will go from Nevada iCty and Grass Valley in the worthy cause.

Congressman Harry Englebright, stated to the Nugget yesterday that he was very much in favor of the Clinch appointment and that he has worked hard for that result.

A leading figure in California history, Charles E. Clinch has proven many times that he is not only a progressive leader, but that he has a keen sense of business and sound financial judgment.

In appointing Clinch as head of our state roads, Governor Rolph will prove his executive ability and give to California a man fully capable to cope with the highway problems.

NEW HUMPHREY MILL TO BE DEMONSTRATED

For those who are interested in the workings of the new Humphrey Hammer Mill. A demonstration beginning tomorrow will be made at San Jose and any shipment of ore up to a carload will be milled and amalgamated Free Of Charge. Mr. W. P. Clerkin, North San Juan is the Agent.

A mill is also to be set up at the Mason mine, at Graniteville, where the operation of the new mill can be seen. This mill involves a new principle and is arousing a great deal of interest among mining men who have had the opportunity to see it work.

V. F. W. LADIES AUX. ELECTS LAST EVENING

Holding their meeting at the Odd Fellows Hall, the Ladies' Auxiliary of the Veterans of Foreign Wars, Banner Mountain Post Number 2655, elected new officers last night.

Refreshments were served by a special refreshment committee headed by John Marks. And a right good job he did of it the ladies said.

The following officers were elected: President, Mrs. Mary Tonella; Senior Vice Commander, Vensta Jones; Junior Vice, Hazel Figurski; Chaplin, Gertrude Chatfield; Treasurer, Dorothy Lewis; Conductor, Blanche Williams; Guard, Nancey James; Trustees, Gertrude Jones, Agnes Nevrihis, Magaret Tonella.

Besides the election of officers, a regular meeting was held. A delegation of visitors from the Roseville post number 1661 o fthe veterans of Foreign Wars was on hand. The local post is newly organized and outside help in getting off to a good start is helpful. So far the local post bids fair to add its name to the list of the leading parlors.

At their last meeting, the V. F. W. elected the following officers: some verp pointed remarks concern- Vice Commander, Norman Kistle; Junior Vice Commander, Joe Meeks; Quarter Master, Max Weiss; Chaplin, Solan Chatfield; Trustees, Max Weiss, Harry Parson, O. F. Tonella.

Appointed officers:

Adjutant, O. F. Tonella and Guard, Edger Kelliher. Joint installation will be Saturday evening, November 26th.

POPULAR NEVADA CITY GIRL SURPRISES FRIENDS WEDS IN RENO NEVADA

It has just been learned that Miss Clalia Angiolini and Reginald Pratt who has been visiting here several times in the past, motored to Reno last Monday where they procured a marriage license and were wed in that city.

This will come as an agreeable surprise to their frineds here. Mrs. Pratt was born and raised in this city, later going to San Francisco where she held a responsible position with the Bank of America for two years. Later she resigned to assist in the office of the Building and Loan Association in Grass Valley.

When that company moved to the city, she again was employed with the Bank of America.

Mr. Pratt, who is connected with the Bank of America at Isleton, California, has visited in thi scity on several occassions and has made a number of friends here.

Miss Angiolini is one of the most popular of the younger set, and she has many admirers and friends who join with the Nugget in wishing the yong couple many years of happy married life.

WOMEN'S IMPROVEMENT CLUB HOLDS MEETING

Last Monday night the Women's City Improvement Club held their business meeting at the Brand Studio on Broad street. A discussion of coming amendments soon to be voted on was held.

At 8:30 o'clock, Mrs. Raglan Tuttle spoket on the first, second and eleventh amendments. She gave arguments for and against the subjects. Mr. Arthur B. Foote, executive of the North Star mine in Grass Valley, gave a talk on amendment number nine, which has to do with the tax situation. Mr. Foote advanced arguments for and against the proposal.

The final speaker of the evening, Assistant District Attorney Robert Tharp, gave a general resume of the various amendments to be voted on. He gave particular emphasis on amendment number three, which has to do with new method of foreclosure proceedings. A general analysis of the differences between mortage deeds and trust deeds was given by Mr. Tharp. He greatly stressed the procedure of foreclosure in the two different types of deeds.

In conclusion, Mr. Tharp made some very pointed remarks concerning the necessity for a change in the California state constitution. He stated that at as now written, the constitution is too bulky and unwieldy for any practical application.

UNION OIL COMPANY TO BUILD NEW PLANT

It was learned today that the Union Oil Company have this week leased a plot of one and one-half acres of ground from the N. C. N G. R. R. Co. on the right of way just a little ways out of Grass Valley, where they will soon start construction on a new distributing plant to take care of this territory and the up-country business.

The Union Oil Company have at the present time a plant at Auburn where they have been taking care of the out of town business, but as business increased it was necessary to acquire better facilities. A new plant will soon be built. It will consist of large storage tanks and a warehouse for their case goods and other products.

Clarence Briggs, who has been agent at Grass Valley will be the plant manager of the new plant and the N. C. N. G. R. R. Co. states they have the necessary tank cars ready to take care of the business.

Mr. Briggs will deliver to all parts of the county with large trucks and the trade will be well taken care of. The Union Oil Company is a progressive and wide-awake firm.

MINING MAN VISITS HERE

Mr. Lloyd L. Root, formerly California state mineraligist and now vice president of the Silver Pick Consolidated Mines Corporation, was in Nevada City Wednesday from San Francisco on business. The Silver Pick people have recently acquired a group of mines east of this city.

Big Gold Celebration at Grass Valley Tomorrow

The general Quartz Gold Discovery of Grass Valley, California, will start on Saturday, October 29th with a football game at 1:30 o'clock at the high school, between teams from Grass Valley and Placerville. At 3:30 o'clock, the annual cross country race of five miles will be held.

At 7:30, Saturday evening there will be a juvenile Mardi Gras Parade,, with prizes to be given for the best costumes, so come prepared to participate. Later in the evening the costume ball will be held at the Veteran's Memorial Building. There will be a door prize of a beautiful cabinet radio. There will also be several costume prizes given away at the dance.

One of the features of the celebration at Veteran's Hall will be the '49er camp of Chiseler's Gulch, in which everything wild and wooley ever seen in any gold boom town will be ready for visitors. Jack pots will be the rule and lady luck will have her way again. Country store—all script money.

On Sunday the real celebration of the discovery of quartz gold will be celebrated at the marker on Gold Hill. Here the American Legion Drum and Bugle Corps and the Grass Valley Concert Band will assemble. There will be a program of oratory, the speakers to be grand presidents of the Native Sons and Native Daughters, with also a speaker of the day. In between speeches an exceptionally fine musical program will be rendered, talent having been enlisted from far and near.

The Grass Valley Chamber of Commerce, which is sponsoring the celebration, assured the public that the discovery of quartz gold, upon which the very livelihood of these mountain towns depend, will be commenorated in a manner befitting its importance and on a scale which will not soon be forgotten.

Cross Country Race

The Quartz Gold Discovery Committee of the Grass Valley Chamber of Commerce, is asking for amateurs to enter the cross country race held each year in connection with their celebration. The winners for the first three places will receive merchandise prizes. Namely: First place, wrist watch; second and third places, fountain pen and pencil sets. All suitably engraved. In addition the winner will have his name engraved on a beautiful silver perpetual trophy.

NEVADA CITY MAN HAS RICH QUARTZ GROUND

One of the most promising quartz prospects being developed recently in this district is the rich lode mining claim, located about eight miles North of Nevada City, on what is presumably a continuation of the Hoge ledge. George W. Erway, mining man of this city, has done considerable prospecting and development work on this new prospect. He has traced the ledge for 4,500 feet on the surface and has staked four full quartz claims to the best advantage. The ledge runs North East and South West and is about four miles Northeast of the Hoge mine.

The ledge is from 26 to 30 inches in width and is composed of a sulphide ore. Assays have run from a low of $2.60 per ton, to a high of $167.76 per ton. The average runs in the neighborhood of $11.00 per ton. The composition of the country rock is slate and parphyritic altered dirite.

Good all year around roads lead to the property. Plenty of water and timber abound the land.

Erway has sunk a shaft 40 feet deep on the ledge which continues strong from the grass roots.

There is an abundance of water in the country rock on the hanging wall side of the ledge. The country rock on the foot wall side of the ledge is dry except where the water from the other side of the ledge runs over the top of the ledge and flows down from the top. This fact gives every indication that the ledge is a very deep one. It was not deep, the water would flow under the ledge.

As the prospect runs on a hillside, Erway has developed a syphon system for draining the water from the shaft.

SILVER PICK PLANNING ELECTRIC MINE POWER

The Silver Pick Consolidated Mines Corporation have started work on a pole line that will bring electric power to their group of quartz mines, located about four miles east of Nevada City on Deer Creek. Besides power for the mill now located on the Bela Fountain mine, the new company to this district will need power for a water pump, a hoist and an air compressor.

Phil Folick, a Grass Valley man, is in charge of the work and it is expected that he will b emine superintendent when actual mining work begins.

Mr. Lloyd L. Root, Vice President of the Silver Pick Company, visited the mine Wednesday from his offices in San Francisco. Root later expects to locate permanentely in Nevada City so that he will be in closer contact with the work at the mines.

Corning—Plans being drawn for new hig h school gymnasium to be erected soon.

FAREWELL PARTY GIVEN TO FORMER RESIDENT

Last Friday afternoon, Mrs. Mabel Eddy of Grass Valley gave a farewell party and tea for her daughter, Miss Beatrice Eddy of Oakland, Miss Eddy had been visiting with her mother and friends for a two week period. She returned to Oakland Friday evening where she is staying with her uncle and aunt, Mr. and Mrs. James Rodda, formerly of Grass Valley.

Guests for the afternoon included Miss Helen Rodda, Mrs. Bernice Richardson, Mrs. William Harris, Miss Elsie Lucy and Miss Joyce Richardson.

Refreshments were served in the afternoon and all bid the visitor farewell.

FRATERNAL BODY DATES WAY BACK

CAMPTONVILLE, Oct. 27. It has always been believed that the E. Clampus Vitus, a pioneer fraternal organization, long extinct, which was revived here last spring, was purely a western product, having been originated in the early day mining camps, but now it is learned that such was not the case. A member of the reconstructed order at San Francisco has recently come into possession of an old minute book of a Chapter of the E. Clampus Vitus or Knights of Honor for the year 1849 at Metropolic City, Illinois. The book is complete and also shows that other orders existed then and prior to that time at New Orleans, Athens, Alabama, St. Louis, Mo., etc., thus showing that the first revival of the order in the modern era took place in the south rather than in the west as was otherwise supposed.

CANDIDATE TO VISIT ALL TEN COUNTIES

Believing that a representative in the state legislature can better serve his district by having first hand information on the problems of the district, Jesse M. Mayo, nominee for Member of Assembly, 6th district, although without opposition, has announced that he will visit every one of the ten counties of the district before election day.

Mayo will meet with as many people as possible and discuss their problems concerning the various counties and the district as a whole.

"As the district contains 80,000 people, it will be impossible to see everyone." said Mayo, "and I would be pleased to hear from all those who may have suggestions concerning our district." Mayo's address is Angels Camp, where he publishes a newspaper.

Fruitvale—Two miles four-inch pipe line being laid along Rosedale Highway, from Fairhaven field to Hohawk Petroleum Company's refinery here.

DIADEM MINE UNDER WATER 30 YEARS NOW BEING WORKED

Located just the other side of the hill (a mile and a quarter to be exact) from the famous Sixteen to One mine, the old Diadem mine has been idle and under water for the past thirty years. It is near Forest City and just three miles from the big strike recently made by the Sierra Development Company.

About a year ago this abandoned mine was taken over by the interests represented by Whitman Symmes, mining engineer.

The ledge had been found by gravel men working in the old days. They had followed the ledge down to the 250 foot level where it was abandoned because of the belief that it was just a pocket proposition. It will be remembered that the Sixteen to One was abondened bacause of the same belief. Recently enough work has been done in the Forest City district to prove that most of it is not a pocket country.

Symmes, associated with C. M. Cass of San Francisco, unwatered the shaft, retimbered and widened it down to the 250 foot level and did a lot of preparatory and development work during the past year. Cass, who is heavily interested in the project, makes the trip to the mine from San Francisco at least twice a month. Both men have great faith in the value of the proposition.

Records show that ore values of $1,000.00 per ton were taken out of the Diadem shaft. The ore was treated at the old El Dorado mill. The old timers quit work at the 250 foot depth because of the uncontrolable amount of water coming in and because they were convinced that they had taken most of the values out of the "pocket."

Just recently the men have contacted the vein which shows very rich high grade. The shoot was found in place just as the past history of the mine said that it was left. It is thought that it may be a continuation of the very rich Sixteen to One mine vein. The arsenical sulphides run five per cent, while assays show that the ore being worked on now averages $240.92. The vein as it is exposed now shows a width of from eighteen inches to three feet. At that rate we now have another new-old mine that will rank with the most famous.

Production work is now being done in two directions. It is being breasted from the 250 foot level to the surface and the shaft is being sunk from the same level. There is 80 feet of gravel from the surface down to the beginning of the ledge.

People who have courage enough to start work where the old timers have abandoned it because of hardships certainly deserve a lot of credit. The Diadem people have struck it and their mine will undoubtedly be listed among the big mines in this district soon.

STEAK BAKE AT MILLS COLLEGE LODGE GIVEN

Last evening a delightful "Steak Bake" was given at the Mills College Lake Vera Lodge for the Nevada County teachers. Nearly all of the county teachers who have been attending the institute meetings held at the local high school this week were in attendance. A great deal of jolly fun was had by the educators. The "Stake Bake" served as sort of let up after the busy institute week.

Mrs. Cassidy, who is head of the Physical Education department at the Mills College Lodge, gave the use of the lodge to the teachers as a special favor this year. This was the first time that the lodge has ever been given over to an outside function and will probably be the last.

Mr. Kjorlie, Nevada City high school principal, was instrumental in putting the event over in a big way.

LEAVES NEVADA CITY

Robert L. Wise, who has for the past seven weeks taken the place of Mr. Harris at the Harris Pharmacy, left Nevada City Sunday for Sutter Creek, where his mother is living. Mr. Wise made many good friends during his short stay in our city and his pleasant personality will be missed here.

Napa—Bids called for construction of new post office building.

REPUBLICANS HOLD MEETING THIS WEEK

State Central Committee Man Visits Local Central Committee

MEETING HELD MONDAY

Dr. Walker Advocates Election of Hoover as Essential for Recovery

The Republican national campaign was brought home to Nevad county this week by the visit of Dr. William H. Walker ,of the Republican State Central Committee, who spent a couple of days in Nevada City and Grass Valley.

Mr. Walker is man of experience in politics and national affairs. He was active in organizing the first farm bureau and has spent a great deal of time in Washington, D. C. Mr. Walker also has been in Europe and is therefore conversant with world conditions. During his stay in Nevada City, Mr. Walker called at the Nugget office and from him we got the Republican angle in the coming election.

Mr. Walker's arguments in favor of the Republican national ticket are the same arguments that most people have heard over the radio recent speches of President Hoover and we have not the space to elaborate on them. However, we believe Mr. Walker is absolutely sincere in believing that the best interests or the country demand the reelection of President Hoover. With this the editor of the Nugget does not agree, but we listened to Mr. Walker with interest an dfound him to be a man of intelligence and sincerity.

One statement made by Mr. Walker has a local bearing and that is regarding the gold standard. He said that if the Democratic effort to inflate the currency of the United States had been successful it would have had a very adverse effect in districts which depend on gold mining. That may be true, but since we are not thoroughly familiar with all the arguments on this question we will leave that to the best judgment of those who read and study this question.

Monday evening a meeting of the Nevada County Central Committee was held at the library building. The following are members of the committee: T. W. Richards, W. L. Mobley, J. F. Cooley, R. E. Deeble of Nevada City; Fred J. Carter, T. M. Harris, Luke Harris, C. B. Grenfell, Stanley Bavier, W. T. Terrell, Oscar L. Coffman, L. Williams.

NEVADA CITY VS GRASS VALLEY NEXT SAT.

A week from tomorrow, Saturday November the fifth, the big game will be held. Don't forget the date. Nevada City high school will send her first football team in six years against her arch rival for any honors, Grass Valley high school. The place will be Cashin's field, just the other side of the local high school about a quarter mile.

Grass Valley appears to have a slight edge as they tied Placerville 0 to 0 wheras the local boys lost 6 to 0. But excitement is already at a fever pitch at the local school and if determination means anything, Nevada City will be victor.

In the game last Saturday, the locals displayed a world of speed and power in downing Auburn 34 to 0. They used only straight football in that game and failed to give the Grass Valley scouts any light on what deceptive play they are known to possess. The boys have Grass Valley guessing and that is the best mood to catch them in.

After watching the local team play and observing Coach Barron's method of instruction, we find ourselves liking Nevada City by at least a nose.

VISITS IN OAKLAND

Mrs. H. B. Wright and son, Billy, left yesterday morning with Mrs. Wright's mothre, Mrs. Linnell, for a few days visit in Oakland. Mrs. Linnell has been staying at the Wright home west of Nevada City for the past 10 days.

THE NATIONAL CAMPAIGN

In another column will be found a news story regarding the visit of Dr. William H. Walker, of the Republican State Central Committee.

Mr. Walker is an able man and we believe, a sincere man and his arguments, unless carefully analyzed, might lead us to the opinion that the salvation of the country depended on the election of Herbert Hoover. But there is one fundamental question that Mr. Walker did not dispose of to our satisfaction and that is: Why is it that under the Republican way of doing things the rich continue to get richer and the poor poorer?

Well, Mr. Walker thinks that would be the case even if the Democrats were in power, and maybe it would. But the average everyday citizen cannot help but wonder why it is with all the wealth of the United States, with surplus in almost every line, that millions of people are hungry and destitute. Maybe the Democrats can't change this condition, but there is a great mass of people in the United States who are hoping that they can and who believe, at least, that they will try.

The criticism is directed at Mr. Roosevelt that his promises are vague; that he is promising things that he cannot carry out. On the other hand, what of the promises of the Republican administration? Go back to 1929 and read the glowing, idealistic words of Herbert Hoover, president-elect. He painted a picture of prosperity and well being that was based on conditions which, even at that time, contained the germ of the stock market crash that soon followed. The contrast with the conditions which exist now it too great. There was not a word of warning of impending disaster, which Mr. Hoover should, with his knowledge of world conditions, at least have faintly foreseen, if not expected.

If Franklin Roosevelt is promising things that cannot be carried out, we find the Democratic platform very definite and clear on certain things that the American people are intensely interested in for instance—prohibition.

To the editor of the Nugget there is one thing that stands out in comparing the platforms and policies of the two parties and that is that the Republican administration has been trying to bring back proseprity by loans to corporations through the Reconstruction Finance Corporation. There can never be a return of prosperity until the millions of unemployed are back at work again. That is the one and only thing that will speed up business and restore prosperity. And that is what the Democratic leaders propose to do.

As far as the economic rehabilitation of the United States is concerned no sane man believes that Roosevelt and Garner can work any miracles or bring about any quick change. But the promises of Herbert Hoover have ceased to cheer up the great mass of the people and they are willing to take a chance; in other words the average man thinks things could not be much worse and he wants a change, a new deal, new leadership and a new start.

THE LAST WORD

ABOUT THE CONTROVERSIAL PROPOSITIONS ON THE NOVEMBER 8 BALLOT

How the Experts Advise You to Vote

No. 1—WRIGHT ACT REPEAL

YES By BYRON C. HANNA, Former Chief Deputy District Attorney Los Angeles County.

California's future prosperity demands repeal of the Wright Act, bringing to life our grape, hop and barley industries, restoring $250,000,000 in annual returns when national prohibition is modified. It will reduce your taxes and relieve unemployment. Unless the Wright Act is repealed, California will remain bone dry regardless of modification or repeal of the Volstead Act and the Eighteenth Amendment.

Byron C. Hanna

NO By MABEL L. DORSEY, Commander in Chief Minute Women, Wright Act Supporters.

Vote "NO" on measure No. 1. As long as the Eighteenth Amendment is in the constitution, the Wright Act is necessary for state enforcement. Repeal would divert to the federal treasury fines now collected by municipalities, counties and the state. Every thinking person knows there would not be enough federal officers to police the more than 1000 miles of California territory should this act carry. Enforcement pays in dollars and cents as well as in mortality and decency. Making intoxicating liquor more easily accessible is not going to benefit humanity in any form.

NEWS COMMENT

(By Christian Anderson)

In 1831 Andrew Jackson took the government away from the International Bankers—It is possible to do that again if Americans will walk to the polls and elect Roosevelt and Garner next November 8th for it is certainly evident to the most casual observer that these men are honest if not shrewd.

We did not learn the man's name but we did find out that he was a prospector on the south Yuba and bless you he had made a chocolate cake for his mothers birthday. On top of the cake was about 40 cents worth of gold, the cake wasn't good looking but the love baked into that cake was beyond all calculations.

If any big corporation employee had as badly bungled his job as Hoover has his, he would soon be out of a job, no propaganda would save him. Hoover is heard by the American people to manage the biggest corporation in the world based on the soundest principles of government. Senator Wagner really indicated that "Herbie was frequently wrong usually late and always futile," that be the case, their is heavens name let us use the old Australian ballot to send him back to oblivion.

Newspaper item as follows: "Henry Ford today repeated his advic eto his workers that "President Hoover must be elected to prevent times from getting worse and to help them get better." "These are our convictions and we submit them to the serious consideration of all Ford motor employes and their families." Perhaps that is one way to make votes for Hoover and perhaps not. What would you say?

From politics to art and beauty did you notice the beautiful colors in which nature has draped our trees especially the populars.

No mater where you look in this community your eyes can feast on the royal splendor of these dignified stately trees, which even after the leaves are gone will stand straightlaced and ascetic only awaiting the soft spring winds to again awaken them to paint the landscape with green and yellow patterns.

OLD OUSTAMAH TAILINGS ARE NOW BEING WORKED

Mr. R. E. Johnston, formerly of Redwood City, has leased the old Oustamah quartz tailings for a period o ftwo years. He ha sbeen setting up and working on the property for the past month. The Oustamah mine is a short distance west of Nevada City near the old Indian Flat road.

A new method of recovery is being used by Johnston that has been subject to some criticism. To convince an interested party he put a sluice box on the end of his workings. After adjustment was made, the party could recover no gold or black sand to any appreciable amount in the sluice box.

Johnston is now recovering amalgam, flower gold, small quantities of flake gold and considerable black sand. Actual values of the recovered minerals are as yet unknown, but Johnson states that they are not coming up to expectations as yet.

The flower gold is of the finest, some of it is infinitesinmal even under the microscope. To recover it the most careful methods must be employed.

With his black sand, Johnston is retaining all of the fine gold. Even what little flake gold there is has such a light body to it that to retain it in a pan, the most expert hand is neded.

PLACER COUNTY GETS LABOR ALLOTMENT

The naional government has cancelled proposed financial allotments for roads to be built in other parts of the Tahoe National Forest and has instead allotted $8000.00 for the building of roads on the Forest Hill divide between Forest Hill and Forks House in Placer County. Work will be done on the main road and on several minor roads leading from it.

The reason given for the change of allotments was that people in the Forest Hill district were more needy than in other sections.

The $8000 will be taken from the emergency fund for the unemployed that is to be devoted to reconstruction road work. Labor for the work will be supplied from needy people with dependents picked from the Forest Hill divide country by a committee consisting of three prominent Forest Hill citizens .

Work will be done under the supervision of the Forest Service with headquarters in Nevada City. They will be assisted by the Placer County authorities.

The wage scale of 50 cents per hour will be maintained. At six hour day and a 30 hour week will be used in connection with the stagger method o femployment. This will be done so that the money devoted to the project will be distributed to as many needy families as possible.

Standard equipment for Placer County road work will be utilized in the work which is scheduled to commence on November first.

It was hoped by the Nevada City office of the Forest Service under R. L. P. Bigelow, that other funds would be obtained for more of this emergency work. But the amount alloted was placed where the need for employment was the greatest at this time. No other winter road projects are now contemplated for the Tahoe National Forest Service this winter, states Mr. Bigelow.

Work planned for the building of a road into the Empire ranch country from Downieville was suspended because of the belief that the unemployment situation was not so keen in Sierra County. It is hoped that later the work can be completed as considerable surveying and preliminary work has already been done. That road will open a vast territory northeast of Downieville.

MRS. GERMAN ATTENDS EASTERN STAR MEETING

Elected Evangeline chapter delegate to the 59th annual session of the grand chapter of the Eastern Star Lodge, Mrs. Mary German of this city attended that session in San Francisco last week. The meeting was held in the civic auditorium and was voted by all in attendance as the most successful meeting ever held.

Mrs. German tells us something of the unusual session. This bi-centenial year was capitalized on in the selection of costumes. All of the grand officers, the pages, the ushers, and the deputy grand matrons were attired in colonial garb. The decorations and trimmings were in tune with the general colonial atmosphere. A colletcion of George Washington paintings that were loaned for the occassion adorned the walls. Everything harmonized with the spirit of the occassion.

The session lasted for four days and each day was outstanding in its success. Mr. German was the only delegate from Evangeline chapter which takes in the Nevada City district.

The huge San Francisco civic auditorium, which will accommodate thousands of people, was packed for each session. The ball night it was too crowded for the usual grand march. From every standpoint this year's session was an outstanding success. San Francisco is to be commended, for the way he received her visitors.

Next year the annual session will be held at Long Beach.

CALIFORNIA'S FOREST AREAS DECREASING

In th Days of '49, when the mud flats of San Francisco Bay extended to Montgomery street and Los Angeles was a pueblo, the pine forests of the Sierra Nevada and the Douglas fir forests of the coast range clothed the mountains and foothills in a much wider belt than they do today, according to a report by A. E. Wieslander of the California Forest Experiment Station of the U. S. Forest Service. Logging, grazing and particularly forest fires are the chief factors which have converted the old commercial forests to what are now comparatively worthless land and have created a land management problem of large proportions in California.

In Eldorado County alone, according to Wieslander, the ponderosa pine forests have retreated 10 miles up the mountain slopes from an elevation of 1,000 feet to the 2,500 foot contour on a 30 mile front, leaving a strip of 162,000 acres entirely deforested an dan even larger area thinly stocked with second growth trees. This land, which is capable of producing a forest stand of 37,000 board feet of lumber per acre, more than is usually found today on the average commercial logging areas, is now mostly covered with half scrub woodland, worthless for timber and too dense or too brushy for good grazing.

Isolated survivors of the original forest, scattered groups of second growth and such names as Sawmill Flat, Sawmill Creek and Shingle Springs, occurring in what are now treeless areas, indicate that they were once in forested territory. This theory is confirmed by old records which prove that from 1850 to 1870 many sawmills supplied lumber to the placer mines in the central Sierra region.

Proposition
No. 3
Will Be a
Boomerang To
The Borrower!

Vote NO

You might vote *wrong*, thinking you were voting *right* because Proposition No. 3 is not what it seems.

BECAUSE IT WILL

Impair the value of real estate

It will throw unnecessary restrictions around the borrowing of money

It is so confusing that neither borrower nor lender will know his rights under it, nor be safe in his title or possession

It will protect neither the lender in his loan or the borrower in his equity.

IT CONVERTS EVERY FORECLOSURE INTO A LAWSUIT.

Vote NO

The Yuba River Country

Ever since George McKnight in 1850 stubbed his toe to the probable accompaniment of words spoken under his breath and looked down at the obstruction to see virgin gold glittering in the crystal white quartz, gold quartz rock has played a most important part in the lives of Grass Valley residents. The city and its streets are built of materials that contain gold, as the most efficient mill is unable to get all the gold out of the rock. In the very early days much gold was lost that today is being recovered. Many of the going mines have, during the past two or three years, picked up the rock from waste piles of earlier operations and are running this rock through their mills and flotation plants at a tidy profit to themselves.

The past eighty years, when anyone in Grass Valley or its enviorements built anything for which crushed rock was needed to the waste dumps of one of the mines he would go. The city of Grass Valley, the County of Nevada, and even the State of California, when building highways in this district have used nothing but this mine rock. A motorist driving along the streets today may well be riding on a paved road—the rock for which lay for millions of years a mile and more beneath the surface of the earth. In 1874, Main Street in Grass Valley was being macadamized with rock from the old time Dromedary mine. While the gravel operations were in full swing it rained one day and onlookers were startled to see flashes of gold in the quartz rock. There followed then a feverish search for gold during which the whole street was gone over and several valuable pieces of rock picked up. A picture is still in existance that was taken in 1874 from the second story window of an office that is now occupied by Dr. W. C. Evans, dentist. Looking down Main Street toward South Auburn, dozens of men and boys in old time miners clothes are seen squatting on the piles of gravel as they hunt for the free gold. That was fifty eight years ago. Less then thre emonths ago, while gravel rock from the Empire mine dump was being spread along the highway between Grass Valley and Colfax, men with canvas bags swinging over their shoulders followed the sprinklers along and picked up gold bearing quartz. True they did not make fortunes and some days they made very little, but yet they were making a livelihood picking gold off the highway. In eleven miles of this highway probably $25,000 worth of the precious yellow metal lies locked beneath the asphalt surface.

In the same way when the State of California built the highway between Auburn and Grass Valley the fifteen mile stretch between Bear river bridge and town were rocked from the waste dump of the Pennsylvania mine. In this stretch there is another approximate $25,000 worth of gold. Last July and August while the city of Grass Valley was paving Conaway Avenue, the street superintendent, George Bennetts, while running the rolier noticed the familiar yellow gleam and stopped the machine. Jumping down he picked up a piece of rock smaller than an egg, and found that is contained two and one half dollars worth of free gold.

But though a quarter million dollars in gold is doubtless a part of the asphalt or concrete surfaced streets and highways of the Grass Valley district, this represents only a minute fraction of the gold that has here been produced. It has been estimated that of the $20,000,000 gold produced in the New World since Columbus discovered America, 15 per cent was during the period form 1493 to 1848 and 85 per cent since that time. Of the worlds output the United States has produced 22 per cent and the County of Nevada in and about Grass Valley has produced 5 and 6 and 10 per cent of the entire United States gold production. And although a quarter of a billion dollars has been added to the wealth of the United States by the gold mines of Western Nevada County, quartz mines are still producing $10,000 worth of gold each day. A tremendous industry received its start by the stubbing of a thick soled miner's boot back in 1850. And eagerly Grass Valley prepares for its annual Quartz Gold Discovery Celebration which falls this year on October 29th and 30th.

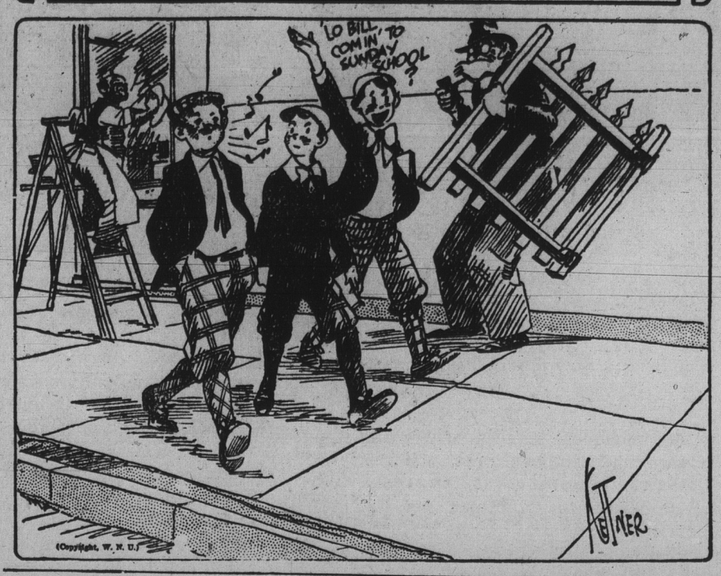
The National Red Cross organization reports having expended $355,526 in assisting its chapters to carry on their relief activities when local funds were exhausted. It invites you to join, November 11-24.

In drought affected counties designated by the United States department of agriculture the American Red Cross during the year distributed 223,811 tons of stock feed to 184,188 owners of livestock.

Sacramento—State's highway construction activity since first of year, including contracts to be awarded in August, reached total of $27,264,300.

Williams—Lord & Bishop received $44,429 contract for 18 miles of surface treatment between Abbot Mine to point five miles west of here.

The Morning After



Personal

Mr. and Mrs. Robins are spending a few days in San Francisco taking in the sights.

Mrs. Mary Meehaw has been visiting Mrs. I. E. Green for several days, returning to her home in Forest Friday.

Mrs. Loren Williams, who has been visiting her daughter, Mrs. H. Williams in Sacramento, returned to her home Sunday evening.

The Red Cross reports that ninety thousand families in 143 countys where coal mining is the cheif activity have been given aid during the year at a cost of $522,000.

No. 11—HUNTINGTON BEACH OIL

YES By E. G. CONRAD, Mayor of the City of Huntington Beach.

A majority "YES" vote on Proposition No. 11 will grant to the city of Huntington Beach the tidelands within the city limits, the same as other coast cities, and will open the way for a $2,000,000 development project which will stimulate business, create jobs for probably 500 men and insure a $100,000 bonus and a handsome oil royalty to the public treasury to relieve the taxpayers of the state. It will save to the people of Huntington Beach and the state of California a portion of the vast oil pool now being drained to the profit of the Standard Oil company. The measure gives the city the right to develop its own bathing beach and yacht harbor.

No. 14—TAXATION OF VESSELS

YES By Richard W. Barrett, legislative representative, San Francisco Chamber of Commerce. (No organized opposition).

Proposition Number 14 on the November ballot is a re-enactment of the present provision governing the taxation of ships registered in California ports. The only change is to extend the law for a period of 20 years. The amendment is sponsored by the Los Angeles and San Francisco Chambers of Commerce and was unanimously approved oy both houses of the legislature.

There is no opposition.

This law limits the taxation of deep sea shipping to state purposes. It does not deprive the cities or counties of any present revenues. Without it, however, the state would stand to lose considerable revenue from ships now registered in California ports.

Its enactment is necessary, since the other Pacific states—Oregon and Washington—already exempt ships from local taxation, and it would only be necessary for California ships to change their port of registration to a northern port to avoid such local taxation. They would, in fact, be compelled to do so, since they could not compete on the high seas with vessels exempt from local taxation.

ORTH SAN JUAN

TH SAN JUAN, Oct. 26, —Our school was in session ays this week. The teacher, Alice Baylis, will attend the institute in Nevada City the nder of the school week.

r. Norman Housman lost his e somewhere on the highway Saturday.

r. and Mrs. Bergstrum of Loa les were stopping at the Na- l hotel a few days this week.

r. Homer is making a business to Visalia.

e Colombo was visited on Sun- by his son, Emilio and wife and le boy, two daughters and their children.

Another dragline has started op- ion on Shady Creek on the Stan- Housel ranch. Some heavy ma- nery i sbeing hauled in.

It is reported that Mr. Palmer who went to the sanitarium last week to be operated on for appendicitis, is slowly improving.

Mr. and Mrs. Chas. Elliot of Nevada City visited their aunt, Miss Elizabeth Ferguson, of Sebastopol, over Sunday.

Mr. and Miss Trux of Lompoe, were Sunday callers on Mrs. Truax's sister, Miss Ferguson.

Mr. Hamilton, the District Superintendent, preached in the church Wednesday morning, he is a fine speaker.

Mrs. Jones and Mrs. Harris sang a duet. At noon the Ladies' Aid served a chicken pie dinner in the old parsonage to a dozen people. Mr. Hamilton and Mr. Buckner go from here to Camtonville, Downieville and Sierra City on Mr. Hamilton's regular semi-yearly visit.

Will Peckwith and J. J. McCullough, went to Downieville on Wednesday with two men interested in looking at the Empire ranch.

Mrs. J. M. Harris and nephew, Harris Matthews, spent the week end with Miss Millie Clerkin, near Pike City.

On Saturday morning the Clerkin-Harris party went up to Keystone Gap, where some o fthe Clerkin's cattle run.

They ran into the first winter storm of snow and sleet, accompanied by a strong icy wind. Leaving the higher altitude for home the snow became a hard rain while soon made the road muddy and slick.

Cars and trucks going up, had on chains and from their zigzag tracks evidently found the going difficult. On Sunday morning the mountains in the neighborhood of Keystone Gap could be seen white with snow from the Clerkin's ranch.

Rev. H. H. Buckner preached here Sunday p. m.

ALLEGHANY

ALLEGHANY, Oct. 25.-Mrs. Mary Meehan has been visiting Mrs. I. E. Green for several days, returning to her home in Forest Friday.

Mr. Donnelly motored to Nevada City over the week end.

Mr. Al Rope and Miss Eva Orvens were visitors in Sacramento over the week end.

Mr. Jack Mulchay and Mr. Jim Cornell returned after a hunting trip. We were all glad to welcome them home again.

Some mining men have been here for a few days and expect to return shortly.

The new boarding house has been completed at the Kenton and Mrs. Casey, from Nevada City is cooking there.

A. Beck has returned from San Francisco.

Mrs. Vaninetti of Camino has been visiting Mr. and Mrs. M. Foley.

Freddy Green is spending the week-end with his parents.

Mr. and Mrs. Bill Chenoweth left for their home Sunday at Fowler, after a pleasant visit with Mr. and Mrs. Al Chenoweth.

Mrs. Al Chenoweth has gone to Sacramento on a visit to her mother, Mrs. Mary Squires.

Bill Green motored to Nevada City Sunday.

Mr. and Mrs. John Lotspeich were visitors in Sacramento Sunday.

John Raymond Green, student at St. Mary's college, visited his parents over the week-end.

Clyde Woods is visiting relatives and friends here for a short time.

Mr. and Mrs. H. R. McDougall returned from San Francisco after having spent a very pleasant vacation.

Mr. and Mrs. Bob Schroeder and children are making their home in Alleghany.

It looks like the beginning of an early winter. A good deal of wind, and very cold nights.

Mrs. Fred Develey and Mrs. N. Kanko left for the lower country last week-end.

Mrs. Crabb is an arrival in our little town.

CAMPTONVILLE

CAMPTONVILLE, Oct. 26. The Coupe belonging to and driven by James L. Joubert, Sacramento high school student, of Oak Valley was badly wrecked Saturday morning a mile north of here on the state highway, when struck by a car belonging to E. A. and J. O. Hays of San Jose, being driven by their chauffeur Louis Logarmarsino. The force was very great, doing much damage to the cars, and it being a miracle that no one was injured. It is alleged that the Hays car was going at an excessive speed and on the wrong side of the highway. The Joubert car was brought to the Lang Garage for repairs, insurance being covered by the Action M. Cleveland Agency of this place.

Chas L. Clark, veteran traveling salesman of San Francisco was in town Friday on business.

Fred E. Conner of Nevada City was in town Friday on a short business visit.

Hawley H. Chatfield of Pike iCty was in town Friday on a short visit, his daughter Lola and Miss Betty Bordyke returning with ihm.

William Wensel returned a few days ago from a short visit to the lower country.

Julius E. Pauly and son Myron, returned Friday from a few days visit at Mohawk.

Mrs. Rachael M. Labadie motored to Downieville Friday on a short visit.

CAMPTONVILLE, Oct. 21, W. D. Vanderhoff of Sacramento, passed through town Thursday enroute to the lower country.

W. H. Cartwright of Grass Valley passed through town Thursday from Sacramento enroute to the upper country with a load of produce.

Fred H. Butz has been confined at his home in Celestial Valley for the past two days with a bad attack of the la grippe.

C. N. Chatfield, Pike City mining man, was in town Thursday on a short business visit.

Mrs. Bernice Schermantien of San Francisco arrived a few days ago on a short visit with relatives here.

Jacob Kieffer of Downieville passed through town Friday enroute to Colfax.

Miss Belle Alexander, county superintendent of schools, accompanied by Evan Thomas, visited the school here Monday.

We are all glad to know that Elmer Hawkins, nephew of Roy Hawkins, general merchant, is making a complete recovery after being operated upon for appendicitis.

Miss Ducatey and Miss Josephine Owens are visiting Miss Eva Owens.

SUBSCRIBE FOR THE NUGGET

CAMPTONVILLE, Oct. 26. Winsmore Chapman, Kenneth Schurr, and Jack Humphrey, motored to Erle Saturday evening to atend the dance.

James L. Joubert, arrived Friday evening from Sacramento to spend the week end with relatives at Oak Valley.

Mr. and Mrs. Acton M. Cleveland returned Sunday evening from a brief visit at Reno.

Fred J. Joubert motored to Downieville Monday to conduct the funeral of the late Adem Keiffer.

Miss Elsie Ann Price, Deputy Superintendent of Schools of Plumas County, of Quincy, and Charles Livingston, teacher at Graeagle, motored over for the week end visiting relatives here.

Miss Lola Chatfield and Miss Betty Nordyke returned Sunday evening from Pike City to resume their studies in the local high school.

Mrs. Rachael M. Labadie motored to Nevada City Tuesday on a short business visit.

Charles L. Wilson of Log Cabin motored to Sacramento Sunday taking his son Charles Jr., and James L. Joubert back to school.

Dr. and Mrs. J. H. Barr of Yuba City, were in town Monday visiting friends.

Albert C. Sommers left Monday for the Ruby mine where he will be employed.

This section was visited by a rain Saturday, the first of the season, but the north wind came on so strong following it that it is as dry as before and dangerous still to start any fires.

CAMPTONVILLE, Oct. 28. The case of the People vs. J. L. Hewitt, came before the Camptonville Justice Court, Wednesday afternoon, at which time the defendant through his attorney, Richard Lazarus, of Marysville, waived the holding of preliminary examination on the charge of passing a ficticious check and was bound over to answer in the Superior Court, Judge W. B. Meek, setting bail at $1,000, in default of which defendant was turned over to the custody of the sheriff. Deputy District Attorney W. C. Rucker, represented the people.

Hewitt was arrested a short time ago in Arizona, on a warrant issued upon complaint of Acton M. Cleveland, Hewitt having passed a bad check on him also one on the hotel and over $250.00 worth on his trip. The crime took place a year and a half ago, and the apprehension of the criminal is due to efficiency of Sheriff Charles J. McCoy.

AUTO HEADLIGHTS MUST BE ACCORDING TO LAW

The California highway patrol will start a campaign tomorrow, checking illegal and one-eyed motor vehicles according to notices being sent all over the state. This campaign will last about three weeks, but unless improvement is noted on such infractions of the law—it will continue indefinately.

Every member of the highway patrol will be on the job especially during the early evening hours. Citations will be given all found operating in violation of the law, so it behooves the auto owners to check up and look over the situation.

Particular attention will be paid to light's during rainy weather it being the experience of the patrol that the number of cars being operated with no lights, one light or without a tail light increases materially during rains because of "shorts" resulting from cracks and exposed wires.

Declaring many motor vehicle owners may avoid trouble by having their lights adjusted in advance, M. Cato, of highway patrol, pointed out that drivers may often eliminate expense by making an inspection of their light equipment.

No. 16—TAX LIENS

YES By Edward D. Landels, secretary, California Land Title Association. (No organized opposition).

Proposition No. 16 provides that taxes shall cease to be a lien at the end of 30 years. It does not affect real property taxes levied since 1895. The measure should or because in some counties present property owners are compe taxes levied as far back as 186? although no effort has bee collect them for two generations and although the proper changed hands many times since then.

Why PUMP EFFICIENCY *determines* the cost of Irrigation

It may be that the water level in your vicinity has gone down or that your pump has lifted sand and for this or some other reason the pump parts are worn. If so, and only a test will prove it, the efficiency of your pump has been reduced, and from 15% to 45% of the power used is probably wasted. This waste can be avoided.

EXAMPLE:

The accompanying graph shows how power costs rise as pump efficiency drops. Horsepower and cost figures are based on a pumping plant with a capacity of 500 gallons per minute on a lift of 100 feet. The job to be done is flooding 162 acres to a depth of twelve inches (162-acre feet) in 1752 hours, or 73 days. If the pump efficiency is only 20%, a 60-horsepower motor has to be used, and the operating cost is $1,110. However, if the pump efficiency is increased to 55%, a 25-horsepower motor will do the same job for $465. There is a saving of $645.

The simplest way to reduce irrigating costs is to improve pump efficiency. An inefficient pump requires not only a larger motor but more power.

Experts estimate that the great majority of irrigation pumps in Northern and Central California are not more than 35% efficient.

Our Rural Power Representatives will gladly furnish you with the names of reliable pump engineers who will test your pump efficiency. For further information, write or telephone our nearest office.

LEGAL NOTICES

State of California
Department of Public Works
Division of Water Resources
Sacramento

NOTICE OF APPLICATION TO APPROPRIATE WATER

Applications 7024 & 7113

NOTICE IS HEREBY GIVEN, That Edward Bickel, P. O. Box 881, Nevada City, California, has applied to the Division of Water Resources, Department of Public Works, State of California, for permits to appropriate unappropriated water, subject to existing rights.

Description of Project Application 7024

Date Filed: July 31, 1931.

Water to be Appropriated from: Greenhorn Creek, tributary to Bear River.

County of: Nevada

Amount applied for: 38 cubic foot per second.

Diversion season named: January 1st to December 31st of each season.

Water to be used for: Mining & Domestic purposes.

Point of Diversion within: NE¼ of NW¼ of Sec. 10, T. 16 N., R. 10 E., M. D. B. & M.

Place of Use described: Sailor Flat mine of Fenton Gold Mining Corp., within Sections 4, 5 & 8, T. 16 N., R. 10 E., M. D. B. & M., as shown on map filed with the Division of Water Resources.

Water will be returned to Greenhorn Creek within NW¼ of NE¼ of Sec. 8, T. 16 N., R. 10 E., M. D. B. & M.

Application 7113

Date Filed: November 2, 1931.

Water to be appropriated from: Little Greenhorn Creek (sometimes called Spanish Ravine) tributary to Greenhorn Creek, thence Bear river.

County of Nevada

Amount applied for: 15 cubic feet per second.

Diversion season named: January 1st to December 31st of each season.

Water to be used for: Mining & domestic purposes.

Point of Diversion within: NW¼ of NE¼ of Sec. 4, T. 16 N., R. 10 E., M. D. B. & M.

Place of use described: Sailor Flat Mine of Fenton Gold Mining Corp., within Sections 4, 5 & 8, T. 16 N., R. 10 E., M. D. B. & M., as shown on map filed with the Division of Water Resources.

Water will be returned to: Greenhorn Creek within NW¼ of NE¼ of Sec. 8, T. 16 N., R. 10 E., M. D. B. & M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permits shall within 60 days from date hereof, file with the Division of Water Resources, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the applications and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of the water.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

EDWARD HYATT
State Engineer
Dated: Sacramento, California
Oct. 18, 1932
Oct. 28—4t

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912,

Of Nevada City Nugget published weekly at Nevada City, California, for October 1932, State of California, County of Nevada ss.

Before me, a Notary Public, in and for the State and county aforesaid, personally appeared C. B. Anderson, who, having been duly sworn according to law, deposes and says that he is the Business Manager of the Nevada City Nugget and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse o fthis form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher Anderson Bros. Nevada City, California.

Editor, R. R. Anderson, Nevada City, California.

Business Managers, C. B. Anderson, Nevada City California.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more o ftotal amount of bonds, mortgages, or other securities are:

Mrs. Elsie P. Willoughby, Nevada City, California.

4. That the two paragraphs next above, giving the names of the owners. stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affliant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

SUMMONS

In the Superior Court of the State of California in and for the County of Nevada.

No. 6085

Action brought in the Superior Court of the State of California, in and for the County of Nevada, and complaint filed in the office of the Clerk of said County of Nevada.

Corporation of America, a corporation,

Plaintiff,
vs.

Augustus Stenger, Margaret H. Dickerman, Thomas W. Richards, M. Rosenberg, also known as Morris Rosenberg, and Rose Rosenberg, his wife, John Doe, Richard Roe, Black Company, a corporation, and also all other persons unknown claiming any right, title and estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto,

Defendants.

The People of the State of California Send Greetings To:

Augustus Stenger, Margaret H. Dickerman, Thomas W. Richards, M. Rosenberg, also known as Morris Rosenberg, and Rose Rosenberg, his wife, John Doe, Richard Roe, Black Company, a corporation, and also all other persons unknown claiming any right, title and estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's tite thereto.

Defendants.

YOU, AND EACH OF YOU, are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within ten (10) days after the service on you of this Summons, if served within this County, or within thirty (30) days if served elsewhere.

This action is brought to determine the adverse claims to and the clouds upon the title to the real property described in the complaint herein and hereinafter described by the said plaintiff, a corporation, which claims that by itself, or by itself and its predecessors in interest, it has been in the actual, exclusive and adverse possession of such property continuously for twenty (20) year prior to the filing of the said complaint, claiming to own the same in fee against the whole world, and to have paid all taxes of every kind levied or assessed against said property during the period of five (5) years continuously next preceding the filing of said complaint, and which said property is situated in the said County of Nevada, State of California, and bounded and described as follows, to-wit:

All that real property situated, lying and being in the city of Nevada City, county of Nevada, state of California, particularly described as follows:

All of Lot 5 and the west 20.75 feet of Lot 8 in Block 16, Nevada City, California, as shown on the Official map of Nevada City, made by H. S. Bradley in 1869.

Beginning at a point on the south side of Broad Street from which the corner of Broad and Pine Streets bears N. 72 deg. 26 min. W. 120.57 feet, and running thence:

1. S. 72 deg. 26 min. E. 20.66 feet. Thence
2. S. 17 deg. 06 min. W. 173.00 feet to Spring Street. Thence along Spring Street
3. N. 72 deg. 26 min. W. 20.75 feet to the east line of Lot 4. Thence
4. N. 17 deg. 08 min. E. 173.00 feet to the place of beginning and containing 0.0825 acres, more or less.

AND YOU ARE HEREBY NOTIFIED that unless you appear and answer as above required, the said plaintiff, a corporation, will take judgment for any money or damages demanded in said complaint, as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

GIVEN UNDER MY HAND and the seal of the Superior Court for the County of Nevada, State of California, this 27th day of June, 1932.

LOCAL HAPPENINGS

Robert Spencer and Fred Oppenlander of the Calavada Mining Company were in town this morning The men are in charge o fthe mining operations on the old Stockton Hill mine tailings.

Mr. and Mrs. O. W. Crane of Pasadena were visiting the Don Carlos Billicks yesterday. Mr. Crane is interested in mining in this district

Mr. C. M. Cass of San Francisco a subscriber to the Nugget, stopped in Nevada City last night on his way to the Diadem Mine near Forest City Cass is associated with Whitman Symmes, mining engineer, in the development of the mine.

Mr. and Mrs. Clyde Mugford and family of this city motored to Sacramento yesterday.

Mr. R. L. P. Bigelow, who has been in San Francisco for the past few days, is expected home late tonight Bigelow has been on official business for the Tahoe National Fores Service

E. T. Schaw, of the Sacramento Pipe Works, was a business visitor in town Wednesday.

Will Moulton and Bill Baker of French Corral drove to this city on business Tuesday. Mr. Moulton is going to Sacramento today for business reasons.

French Corral men, Ernest DePratti of the Three Black Cat mine and Cal Linneil of the Harrison French mine were in town last Tuesday and Wednesday on business.

Thomas Jolliff and Arthur LaPaze of Oakland were visitors in this city Wednesday and Thursday of this week.

Mr. Plate, mining man who is interested in the development of the Spring Hill mine between here and Grass Valley, is now stopping at the Bret Harte Inn in the latter city.

All this week has seen many Nevada County teachers in this city because of the Teachers Institute held at the local high school.

Because of the school vacation this week there will be no football game for the local high school tomorrow. Don't forget the game with Grass Valley a week from tomorrow.

It is understood that Mr. and Mrs. Fred Kewell, of Oakland, are planning a trip to Nevada City in a day or so. Mr. Kewell is the President of the Western Paper Box Company of Oakland and Los Angeles.

Coach Beverley Barron of the local high school left for his parents' home in Sonora, Saturday night after his team plastered Auburn with a 34 to 0 defeat. During his trip, Barron visited at the College of Pacific in Stockton, where he was captain of the football team in his senior year. He talked "shop" with Coach Swede Righter. He returned from Auburn Tuesday night.

Mr. Browning of French Corral and his daughter Irene motored to Nevada City Wednesday. They brought Aunt Kate Sullivan, Nugget correspondent from French Corral with them.

Russell Haddy of the Sierra Development Company of Forest City was in town for several days on business during the first part of this week. He left for Forest City yestreday morning.

Ralph Lorimer, California and Nevada distributor for the Atlas Imperial Diesel Engine Company of Oakland, is planning a visit to this city soon.

Lubern Clawson motored to Sacramento last Sunday to attend to some business matters.

Loren Williams, who was serverly injured in a fall from the roof of his home recently, is making a very good recovery, although it will be some time before he will be able to return to work.

Charles Worsham, mining man of Mariposa County, came to Nevada City yesterday noon for an indefinite period. Until a week ago, Worsham has been mining the Black Oak quartz mine near Bowers Cave. He is visiting with Don Carlos Billick, local assayer and mining engineer.

A trip to Sacramento for the purpose of attending to business was made yesterday by Will Moulton, of French Corral. He took with him Dick Deer and Gene Thomas, both also of French Corral.

Mrs. Mary German returned from San Francisco Sunday. Mrs. Germ .n was a delegate to the Eastern Star lodge at their grand chapter meeting held recently.

John W. Culver visited in this city from French Corral yesterday.

N. B. (Bonny) Bishop of French Corral was in town yesterday on a few business matters.

C. A. Andersen, newly appointed representative of Kopp's Bakery in Nevada City, will start calling on the grocery trade north of Nevada City as far as Sierra City today. Andersen has been furnished with a new bakery truck, and his knowledge of the business and acquaintences in the norther territory should stand him in good stead.

VERY BUSY DAY IN NEVADA CITY

Wednesday was a very busy day for the Nevada City streets. Two Roosevelt boosters came to town in a loudly bedrecked automobile and gave street lectures telling of their champions qualifications. While they wer doing that, a Hoover delegate tried to nulify their work by a store to store campaign. About supper time an overgrown delivery truck came to town playing "Yankee Doodle" on a caliope, the object was to stimulate the sales of a certain patent medicine for ingrowing toe nails, hailitosis or what have you. Still later in the evening another Hoover advocate stood up in the rear seat of his automobile and loudly proclaimed the virtues of our present president. All in all, Wednesday proved to be a busy day for the men about town.

BEAUTIFUL FALL COLORINGS

If you have a visitor calling on you about this time of year, take him for a short spin out Nevada street and show him some of the wonderful fall colorings. Every shade and color from th elightest yellow to the deepest red can be seen on trees overhanging the broad street.

Santa Ana—Workmen cleaning new city water well, located on Olive Street.
